- ✓ In-House Transfill
- ✓ Medline Supplies
 - ▷ Nasal Cannula
 - ▷ Oxygen Face Mask
 - ▷ Oxygen Tubing

In healthy people, the lungs absorb adequate amounts of oxygen from regular air. In people affected by certain diseases and conditions, oxygen intake is restricted and supplemental oxygen may be needed.

Some of these conditions include:

- COVID-19
- COPD
- Pneumonia
- Asthma
- Late-stage heart failure
- Cystic fibrosis
